

ENVIRONMENTAL BOARD MOTION 011608-C3

Date: January 16, 2008

Subject: Stoneridge Terrace Service Extension Request #2716

Motioned By: Phil Moncada

Seconded by: John Dupnik, P. G.

Recommendation

The Environmental Board recommends **approval with conditions** to Stoneridge Terrace Service Extension Request #2716.

Board Conditions:

1. The Austin Water Utility will make an effort to build one 12 inch water line to service lots if possible. If all three sites are served (both SER #2716 and #2717), only one line should be constructed (instead of two).

Rationale

Reduces opportunities to excavate more than is needed in an environmentally sensitive area.
